

IN THE CLAIMS

Please amend the claims as shown below, in which deletions are indicated by strikethrough or by double brackets, and additions are indicated by underscoring. Please cancel claim 4 without prejudice and without dedication or abandonment of the subject matter thereof. The current listing of claims will replace all prior versions, and listings, of claims in the application.

1. (Currently amended) An integrated circuit (IC) ~~[[IC]]~~ tag equipped ~~vehicle~~ motorcycle comprising:

an element formed of a resin material having transmissivity to electromagnetic waves;
and

an IC tag integrated with the element, including an ID code registered therein in standardized data form, and being disposed near a steering handle or behind a seat of ~~at a portion~~ of the ~~vehicle~~ motorcycle ~~that is not covered by an obstacle when viewed in plan view.~~

2. (Currently amended) The IC tag equipped ~~vehicle~~ motorcycle according to claim 1, wherein the element is a case of a meter unit, and the IC tag is housed in the meter unit.

3. (Currently amended) The IC tag equipped ~~vehicle~~ motorcycle according to claim 2, further comprising a meter panel formed of a material having transmissivity to electromagnetic waves, the IC tag being installed on a back surface of the meter panel.

4. (Cancelled)

5. (Currently amended) The IC tag equipped ~~vehicle~~ motorcycle according to claim 1, wherein the IC tag is molded in resin.
6. (Currently amended) The IC tag equipped ~~vehicle~~ motorcycle according to claim 1, wherein the IC tag is embedded in a resin of a resin case.
7. (Currently amended) The IC tag equipped ~~vehicle~~ motorcycle according to claim 1, wherein the IC tag includes recycling information.
8. (Currently amended) The IC tag equipped ~~vehicle~~ motorcycle according to claim 1, wherein the IC tag includes information which must be described in accordance with a manifest system.
9. (Currently amended) The IC tag equipped ~~vehicle~~ motorcycle according to claim 1, wherein the IC tag includes identification information on component parts of the ~~vehicle~~ motorcycle.
10. (Currently amended) The IC tag equipped ~~vehicle~~ motorcycle according to claim 1, wherein the IC tag includes a replacement record of consumable parts of the ~~vehicle~~ motorcycle.
11. (Currently amended) The IC tag equipped ~~vehicle~~ motorcycle according to claim 1, wherein the IC tag includes a maintenance record of the ~~vehicle~~ motorcycle.

12. (Currently amended) The IC tag equipped ~~vehicle~~ motorcycle according to claim 1, wherein the IC tag includes an insurance contract record of the ~~vehicle~~ motorcycle.

13. (Currently amended) The IC tag equipped ~~vehicle~~ motorcycle according to claim 1, wherein the IC tag includes a tax payment record of the ~~vehicle~~ motorcycle.

14. (Currently amended) The IC tag equipped ~~vehicle~~ motorcycle according to claim 1, wherein the IC tag includes information recorded into a motorcycle ~~vehicle~~ inspection certificate of the ~~vehicle~~ motorcycle.

15. (Currently amended) The IC tag equipped ~~vehicle~~ motorcycle according to claim 1, wherein the IC tag includes information on the owner of the ~~vehicle~~ motorcycle.

16. (Currently amended) The IC tag equipped ~~vehicle~~ motorcycle according to claim 1, wherein the ~~vehicle~~ motorcycle includes a saddle-ride seat, and the element is disposed near a steering handle of the ~~vehicle~~ motorcycle.

17. (Currently amended) The IC tag equipped ~~vehicle~~ motorcycle according to claim 16, wherein the element disposed near the steering handle is a handle cover.

18. (Currently amended) The IC tag equipped ~~vehicle~~ motorcycle according to claim 1, wherein the ~~vehicle~~ motorcycle includes a saddle-ride seat, and the element is disposed near a license plate of the rear side of the body of the vehicle.

19. (Currently amended) The IC tag equipped ~~vehicle~~ motorcycle according to claim 1, wherein the element is disposed in a rear fender of the motorcycle.

20. (Currently amended) A management system of an [[IC]] integrated circuit (IC) tag equipped ~~vehicle~~ motorcycle, said system comprising:

a host server and a terminal, the host server and terminal communicating with each other via a network; and

a database connected to the host server and managing tag information on an IC tag of each ~~vehicle~~ motorcycle by a vehicle ID,

the terminal comprising:

a device for reading the vehicle ID from an IC tag provided on the ~~vehicle~~ motorcycle;

a device for transmitting the vehicle ID to the host server; and

a device for receiving tag information transmitted from the host server in response to the vehicle ID,

the host server comprising:

a device for searching the database by the vehicle ID received from the terminal as a search key to extract tag information corresponding to the vehicle ID; and

a device for transmitting the extracted tag information to the terminal; wherein

the IC tag of each motorcycle is integrated with an element formed of a resin material having transmissivity to electromagnetic waves, and the IC tag is disposed near a steering handle or behind a seat of the motorcycle.

21. (Currently amended) The management system of an IC tag equipped ~~vehicle~~ motorcycle according to claim 20, wherein

the terminal comprises:

a device for updating received tag information; and

a device for transmitting updated tag information to the host server,

the host server comprises:

a device for receiving the updated tag information; and

a device for updating the database based on the updated tag information.
